

## Wired Camera Systems

Product	Cost	Notes
<b>Omni-Vue™</b> 	£1500	Omni-Vue™, 360° 'look down' Camera System with 'Dual Window Triggered Display'. 4 waterproof, metal-bodied, ultra-wide angle lens cameras. 7" monitor, 12-24V, 3 additional inputs, Dashboard Mount, Sun Visor. Electronic Control Unit (12-24V) powers the cameras, indicators & reverse trigger connections & Remote Control. Side Sensor Kit also available (below). Cables: 1 x 18m, 1 x 10m & 2 x 5m are included (18m trailer cable, also available). Calibration is included. Installation not included (approx £420). <b>Van/LGV/Car/12V version now available @£835</b> , please email/call for details.
	£2035	Including a 4-CH DVR (see below)
<b>Multi-Vue™</b>  Parking Mode - 160° Rear-View Mode - 130°	£350	Single Camera, with only 1 lens, but 2 views - 'look down' when reversing and 'look back' when travelling forwards. Supplied with an 4.3" LCD Colour High Resolution Monitor and a 9m cable. 160° reversing view and 130° normal view. Perfect for Motorhomes and Vans.
<b>'Pro' 1 &amp; 2 Camera System</b> 	£540	The 'Pro' range of camera systems offer the highest level of performance and specifications. The 7" digital monitor, which includes 'triggers', can also be utilised with additional cameras for forward and off-side view, ensuring all-around/360° vision, which is especially important when recording (4CH, 500GB, DVR also available, see below). The ultra-wide-angle side-view camera ensures <b>no blind-spots</b> and the system can be supplied with either a 'traditional' 120° reversing camera with microphone, or a compact 150° lens camera (see below). <b>Also available as a 2 camera system.</b>
	£715	Includes 18m cable, 1 camera system, or 18m & 5m cable. <b>2 Camera system.</b>
<b>'Plus' 1 &amp; 2 Camera System</b>  6"	£345	The 'Plus' range of camera systems are similar to the 'Pro' systems (above), but include a 6" monitor. The digital monitor also includes a 'trigger' for automatic camera display when turning/reversing. The ultra-wide-angle side-view camera ensures <b>no blind-spots</b> and the system can be supplied with either a 'traditional' 120° reversing camera with microphone, or a compact 150° lens camera (see below). <b>Also available as a 2 camera system</b> and can be supplied with Side Sensors and Turning Warning Alarm (see below). Includes 18m cable, 1 camera system, or 18m & 5m cable.
	£515	<b>2 Camera system.</b>

## Accessories & Recording

<b>i-track™</b>  68 x 48 x 26mm	£100	Waterproof, non-subscription GPS tracker. Internal battery (1-3 weeks standby life). Free on-line tracking, or track via phone/smart-phone (location 'link' sent by text message). Suitable for horsebox, lorry, motorhome, caravan, quad-bike, plant or trailer use. Supplied with a vehicle (12V/24V) power adapter/charger and a mains charger. (Requires a GSM Sim card, not included).
<b>Accident Recorder (DR-220)</b>  Max 64GB	£240	2CH Accident Recorder with optional external (see below) or internal 2nd camera. Secured 16GB SD Card Memory (64GB Max). Built in GPS & Shock Sensor. HD (1280 x 720 / 30fps / H.264). Wide Dynamic Range Lens (reacts quickly to headlights). Microphone (selectable). 12V/24V, supplied with a cigarette lighter power adapter. Av-Out, can be utilised with a Monitor (optional). Parking Mode (optional additional power lead).
<b>2CH-DVR</b>  Max 128GB	£325	16GB-128GB SD Card, HD (1280 x 720 & 960 x 480 / 30fps / H.264), Av-Out, GPS & Shock Sensors, WiFi module - easy transfer of incident clips, Parking Mode (optional additional power lead).
<b>4CH-DVR</b>  Max 1TB	£595	4 Channel Input (60fps), 1 Channel Output (1,2,3,4 split screen). 12-24V, Remote control (& additional IR extension cable/receiver), GPS Sensor & internal 3-axis Shock Sensor. Secure, 3.5", 128GB SSD, equivalent to 500GB HDD (utilise with up to 1TB SSD), Replay Software (including 'maps'). Also includes 4 Video 'Splitters' (to enable camera images to be simultaneously displayed & recorded). Dims: 100 x 39 x 115mm.
<b>Compact Reversing Camera</b> 	£200	Compact design colour reversing camera with a 150° wide-angle lens. Stainless steel bracket/case and IP69K waterproof/dustproof. 700TV Lines ensure excellent image quality. IR, heated lens and microphone, also included. Can be supplied with the 'Pro' & 'Plus' systems (above) at no additional cost (instead of the 'traditional' 120° lens camera).

Prices include UK delivery, VAT, telephone/email technical support and test/replacement of returned items. Please ask for a quotation for installation and/or on-site maintenance/repair/replacement.
