# Omni-Plant™ 360° 'Surround View' Camera System

Omni-Plant™ is an innovative 360° 'look-down' camera system, which has been specifically designed for all machine types whether wheeled, tracked and/or rotational. SKANSKA etc compliant.

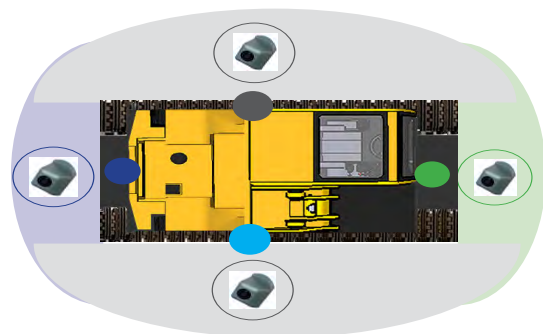

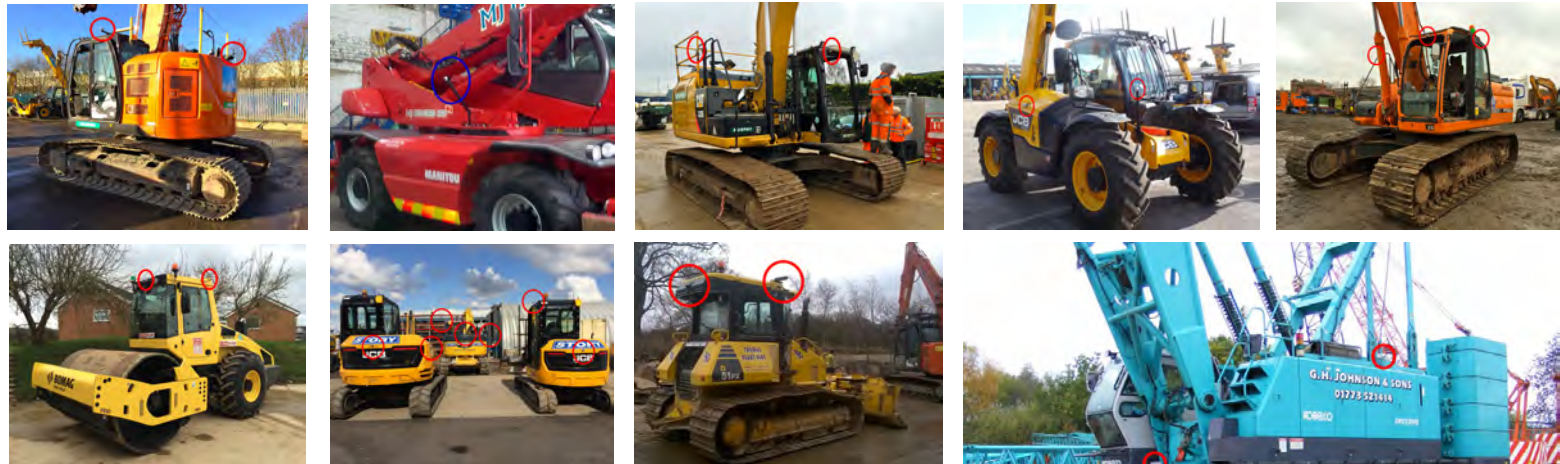

**Benefits:**

- Meet/surpass compliancy standards (for equipment)
- Robust system, including metal/waterproof cameras and monitor as standard
- Extremely reliable system ('OEM standards')
- Reduce accidents and incidents
- Complete evidence (if utilised with a DVR) to reduce/eliminate false claims
- 'HD' camera (1.3MP/WDR) upgrade option, providing superior resolution in all light conditions:

**SKANSKA**

- Complete 'family' of systems, including Omni-Vue™ for trucks or machines (also SKANSKA compliant, from £1135 with a plastic monitor)
- Self installation or national fitting service and support also available
- Complete range of calibration (monitor view) options including: split-screen (50:50), full-screen portrait and full-screen landscape
- Radar integration coming soon
- Suitable for all machine types and sizes

System includes 10m, 10m, 5m & 5m cables, waterproof monitor, ECU & 4 cameras.

\* Not including installation or VAT.
