

# Omni-Van™ 360° 'Surround View' Camera System

**Only £695\***  
(£1150\* with DVR)

Omni-Van™ is an innovative 360° 'look-down' camera system, which is suitable for all LCV's, including delivery vehicles, motorhomes, vans, caravans and mini-coaches (12V only). Can also be supplied with a DVR.

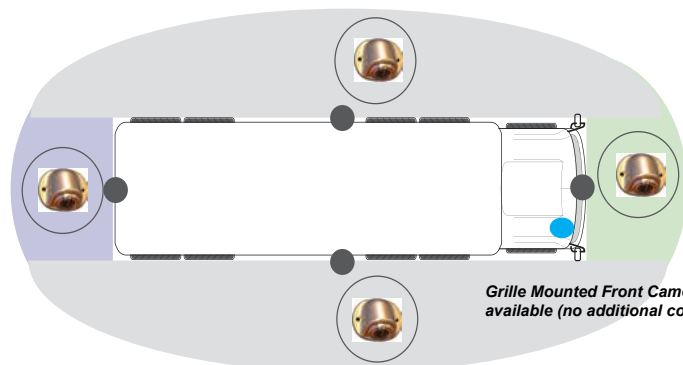

The images from the 4 ultra-wide angle lens cameras are blended together to produce a 'seamless' view around the vehicle and this combined with the individual camera view (split-screen) ensures that there are **no blind-spots**.

**Benefits:**

- Reduce accidents and incidents
- Complete evidence (if utilised with a DVR) to reduce/eliminate 'cash for crash'/false claims
- Meet/surpass compliancy standards (for equipment)
- Ensure that cyclists, pedestrians / vulnerable road users are visible:

- Complete 'family' of systems, including Omni-Vue™ for HGV's & Omni-Plant™ for machines
- Self installation or national fitting service and support also available
- Extremely reliable system ('OEM standards')
- Integrate with ultra-sonic sensors for detection/warning (Radar sensors coming soon)
- Suitable for all vehicle types (12V)

● Side-Cams can be cab or body mounted.

Grille Mounted Front Camera also available (no additional cost).

7" Mirror Mounted Monitor included:

Or 6" Monitor:

Includes: 5m, 10m, 10m & 15m cables.

Digital Wireless Transmitter & Receiver, also available for caravan/trailer use @ £100.
