# Omni-Vue™ 360° 'Surround View' Camera System

Omni-Vue™ is an innovative 360° 'Surround View' camera system, which is suitable for all vehicle types and sizes, whether rigid bodied or tractor/trailer. FORS, SKANSKA, CLOCS, Crossrail etc compliant.

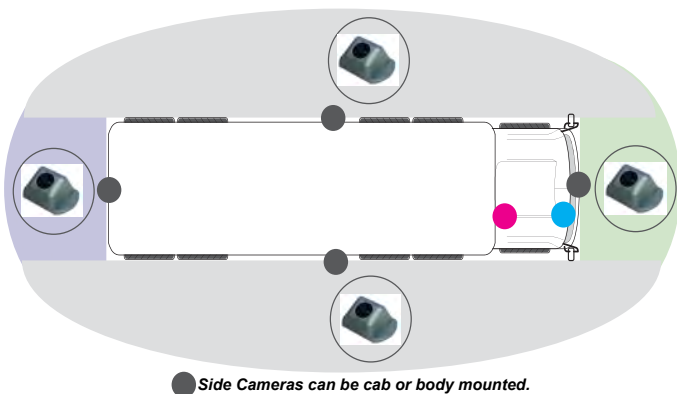

The images from the 4 ultra-wide angle lens cameras are blended together to produce a 'seamless' view around the vehicle and this combined with the individual camera view (split-screen) ensures that there are **no blind-spots**.

**Benefits:**

- Reduce accidents and incidents
- Complete evidence (if utilised with a DVR) to reduce/eliminate 'cash for crash'/false claims
- Meet/surpass compliancy standards (for equipment)
- Ensure that cyclists, pedestrians / vulnerable road users are visible:

- 'HD' camera (1.3MP/WDR) upgrade option, providing superior resolution in all light conditions
- Complete 'family' of systems, including Omni-Van™ for LCV's & Omni-Plant™ for machines
- Self installation or national fitting service and support also available
- Extremely reliable system ('OEM standards')
- Integrate with ultra-sonic sensors for detection/warning
- Radar integration coming soon
- Suitable for all vehicle types and sizes

● Side Cameras can be cab or body mounted.

Monitor included:

Optional DVR:

SKANSKA

Includes: 5m, 10m, 10m & 18m cables.

\*Not including installation, or any additional cables (+VAT).

Suzy Kit available for Tractor/Trailers (270° Calibration).
