

# CAMOS•UK

## REAR VIEW SYSTEMS

Rear camera systems not only provide reassurance when reversing, but also situational awareness when moving forwards, whether driving a motorhome or towing a caravan.

With that in mind, we have developed a comprehensive range of wired and digital wireless (DW) camera systems that are designed to make driving, towing, reversing and manoeuvring safer and more relaxed.

From twin lens/view wired camera systems to DW solar-powered systems, all options are covered.

### WHY CAMOS UK?

- ✓ HIGH-QUALITY SYSTEMS
- ✓ UNIQUE WIRED AND DIGITAL WIRELESS (DW) PRODUCTS
- ✓ NATIONAL FITTING SERVICE
